Harbeth®

XD Series

The Harbeth Story

British-based design and manufacturing team with a rich heritage.

The Harbeth company was founded forty years ago to commercialise the BBC's loudspeaker R&D. A great start, but only the first step of our journey towards the perfect sound. Today's Harbeth loudspeakers are much more transparent, more vivid, more dynamic, more open, and more real because the enabling technology – such as Harbeth's exclusive RADIAL2™ technology – has made that possible. We've incorporated every genuine advancement into the latest Harbeth speakers which are, as you'll hear yourself, in the class of their own for natural sound.

Gravitating towards owning Harbeth speakers is often, we're told, a personal journey made after other ultimately unsatisfactory choices. We understand, but there is a shortcut. When the desire to put music first, to escape to the furthest corners of the musical globe from the safety and comfort of your home becomes essential to your well being, please allow our dealers to demonstrate just how special the Harbeth experience is.

The Harbeth family ranges from the shoe-box sized P3ESR right up to the mighty flagship Monitor 40.3 loudspeaker. All are available in beautiful veneers, and all breathe with the world-famous, open, natural, Harbeth sound. Welcome to natural sound at home.

P3ESR XD

The Harbeth experience in a small package

The P3ESR XD presents a powerful performance well beyond its compact size and can be used for intimate listening spaces or as part of a larger installation.

The most advanced loudspeaker in its class, this mini-monitor delivers pinpoint clarity, accurate bass and dynamic integration across the audio spectrum.

The clean, clear Harbeth sound, in miniature.

Technical specification

System: 2-way vented

Drive units:110mm Harbeth RADIAL2™ bass/mid; 19mm ferrofluid-cooled tweeter

Frequency Response: 75Hz – 20kHz, ±3dB free-space, grille on, smooth off-axis response

Impedance: 6 ohms, easy to drive

Sensitivity: 83dB/2.83V/1m

Suggested Power: Works with a wide range of amplifiers – suggested from 15W/channel

Power Handling: 50W programme

Terminals: Pair 4mm nickel-plated binding posts

Dimensions: 306 x 190 x 184 mm

Weight: 6.1kg (without packing)

Packing: Matched-pair per carton

Position: Ideally away from walls

Stands: Optimally to bring ears level with tweeters. (Tweeter: 230mm up from cabinet base)

Finishes: Cherry, Olive Ash (shown), Rosewood, Walnut, Satin White/Black*

*Special order

Packing: Single speaker per carton

Position: Ideally away from walls

Stands: Optimally to bring ears level with tweeters. (Tweeter: 660mm up from cabinet base)

Finishes: Exotic Ash, Cherry, Rosewood (shown), Walnut

Finishes

A range of beautiful medium-sheen wood veneers, carefully selected to match most rooms. Check with your Harbeth dealer for local availability.

Walnut, mid-brown finish displaying a rich colour and unique grain structure.

Olive Ash is a light veneer with an attractive ripple feature.

Tamo Ash features a visually striking grain pattern. This complex veneer is certain to create an interesting room feature.

Rosewood, a distinctive and richly-hued timber, brownish-red with darkening figuring patterns.

Cherry is a light veneer, which acquires a warm hue as it darkens with age.

*All colours approximate. Please note that veneers vary in both colour, shade and grain structure and will mature with time. Not every model or specification is available in every country. Please check with your dealer/distributor.

Satin black/white special order.
